

## 28th Annual Bridge Building Competition

March 2, 2019

As part of National Engineering and Geoscience Month

The Bridge Building Competition gives Junior High Students in Newfoundland and Labrador an opportunity to learn about engineering and design through a fun, interactive building experience.

Students are challenged to build a bridge using only white school glue and popsicle sticks. They are provided guidelines and are encouraged to get creative in their presentation. Their bridges are then reviewed by a panel of engineers and then put under pressure to see how much weight they can hold before they break!

Provincial and Regional  
Cash Prizes

Memorable, social  
media-friendly event

Meet Engineers and  
learn about their careers

=

The amount last year's  
winning bridge held.  
That's equivalent to a full-  
size sedan!

Competitions will be held in St. John's, Clarenville, Corner Brook, Grand-Falls Windsor, Labrador City and Goose Bay. (Others may be available upon request).

Submissions can also be made in-person or by mail to Suite 203, Baine Johnston Centre, 10 Fort William Pl, St. John's, NL A1C 1K4

Registration is now open! Interested Schools/Individuals are asked to complete and return [the registration form](#) by February 20. Rules for the competition are included with the form.

Want to learn more about the competition, or ask about having an engineer or geoscientist visit your classroom?
