

ASSOCIATION OF PROFESSIONAL ENGINEERS AND GEOSCIENTISTS

PROPOSED MANDATE FOR THE ENVIRONMENT COMMITTEE

1. To promote environmentally sound engineering and geoscientific practices.
2. To educate members about environmental issues.
3. To promote progressive, rational and practical legislation concerning environmental issues in Newfoundland and Labrador.
4. To exort members to comply with all legislation concerning the environment.
5. To survey membership as to their environmental concerns and to develop, and subsequently promote, APEGN policy on environmental issues.
6. To encourage dialogue with government and other organizations in order to ensure a sound environmental policy for Newfoundland and Labrador.
7. To work with regional, national and international organizations to develop and encourage environmental policies which are progressive, sound and practical.
8. Through the Council, provide engineering / geoscientific comment on public environmental issues.
